700126 A.03	Governance Body Accountability	Is there a mechanism for stakeholders to participate in scheme development and decision-making?	A clear accountability mechanism (e.g. elections with voting members, accountability through deeds of trust, appointment by boards that are in turn elected, stakeholder advisory body).	Stakeholders in this case mean any parties who are directly or indirectly affected by the decisions of the top-decision making body (e.g. producers, consumer organizations, members, etc.).	ISO/IEC 17067, 6.4.5	Yes, publicly Yes, on request No	2 1 0

Yes No	1 0
700123 A.05	Sources of Finance	Does the scheme owner make quantitative information on the income sources or financing structure of the scheme available?	An overview of quantitative information on the income sources or financing structure of the scheme (e.g. potentially including type of funding (i.e. financial, assets, manpower etc.), name of funders, amount or %-distribution of income sources). Basic needs include housing, nutrition, transport, health care and savings. Currently, there is no internationally accepted way of calculating or defining a living wage. Explicit reference needed.</p> <p>It needs to be ensured that a living wage is not only granted on paper but that it is effectively paid. This means that i.e. no fees are levied that have the purpose to reduce the actual payment and are used as an indirect way to transfer money back to the employer (German: "Lohnsicherung").</p>	Within 5 years		1
